EDUCATION

Government College Of Engineering

2020 – 2024 | Erode, India
- B.TECH IT
- CGPA: 7.98 (UP TO 7 SEM)

Rajavignesh Higher Secondary School

2019 – 2020 | Melamathur, India
- HSC
- 74 %

Arignar Anna Higher Secondary School

2017 – 2018 | Sendurai, India
- SSLC
- 78 %

CERTIFICATES

Web development via angular
online certified from infosys

PYTHON for AI&ML
certified from ATS

SKILLS

- JAVA
- HTML / CSS
- MY SQL

PROJECTS

Text encryption and blockchain implementation

Text encryption and blockchain implementation.

- In this project, we present a simple program that demonstrates text encryption using hashing techniques and the implementation of a basic blockchain structure. The program showcases the encryption of text data using hashing algorithms, where each block contains encrypted data, block hash, and previous block hash. The blocks are connected together to form a blockchain, providing a secure and tamper-resistant way of storing and verifying data.

INTERNSHIP

Cloud computing and network administrator
Certified from Saratha skills academy

- Amazon Web Services (AWS) is a comprehensive and widely used cloud computing platform provided by Amazon.com. It offers a wide array of cloud services and tools that enable organizations and individuals to build, deploy, and manage a wide range of applications and services in the cloud. AWS is known for its scalability, flexibility, and reliability, and it has become a key player in the global cloud computing industry.
